TORAIZON

Corporate Brochure

Technology, cyber defense and engineering supply from Riyadh

www.toraizon.com.sa

TECHNOLOGY • CYBER DEFENSE • TRADING

Two divisions. One partner.

Toraizon Intelligence is a Riyadh-headquartered technology company delivering nine core IT and cybersecurity capabilities — from physical network installation to artificial intelligence, managed security operations, and application hosting. We are the single vendor enterprises, government entities and growing businesses turn to when they need real engineering, not just consulting slides.

Every engagement is scoped, delivered and supported by our own engineers — giving our clients full confidence in our capability, accountability and long-term reliability.

Our Divisions

DIVISION 01

Technology Division

Networks, systems integration, AI, cybersecurity, managed SOC, technical support, ITSM and hosting — backed by the training and consultation that keep your teams and compliance ahead.

- ◆ Computer & Comm. Networks
- ◆ Systems Integration
- ◆ Artificial Intelligence
- ◆ Network & IT Management
- ◆ Cybersecurity
- ◆ Managed SOC
- ◆ Support & Maintenance
- ◆ IT Service Management
- ◆ Hosting Services
- ◆ Training
- ◆ Consultation

DIVISION 02

Trading Division

Earthing and lightning protection, exothermic welding, cable glands, lugs, cable management, junction boxes and panel accessories — sourced, supplied and installed across the Kingdom.

- ◆ Earthing & Grounding Systems
- ◆ Lightning Protection Systems
- ◆ Exothermic Welding & Moulds
- ◆ Cathodic Protection
- ◆ Cable Glands & Accessories
- ◆ Compression Lugs & Connectors
- ◆ Crimping Tools
- ◆ Cable Jointing & Termination Kits
- ◆ Cable Ladder & Tray Systems
- ◆ Junction Boxes & Enclosures
- ◆ Switchboard & Control Panel Accessories
- ◆ Copper-Clad Steel Conductors

Technology Division

Computer & Communication Networks

Structured cabling, fiber optics, LAN/WAN, wireless, data-centre build-outs and backbone infrastructure — installed and certified to enterprise standard.

Systems Integration

ERP/CRM integration, custom software, APIs & middleware, legacy modernisation and business process automation — unifying every system you run.

Artificial Intelligence Technologies

Machine learning, computer vision, Arabic NLP, generative AI, RPA and AI-powered threat detection — intelligence built into everything we deploy.

Telecom & IT Network Management

24/7 NOC monitoring, SD-WAN, VoIP, 5G and MPLS management with live SLA dashboards across every circuit and site you operate.

Cybersecurity

VAPT, red teaming, compliance audits (ISO 27001, NCA ECC, SOC 2), IAM, cloud security and incident response — offense and defense, unified.

Managed Cybersecurity Operations

Round-the-clock MDR, SIEM, threat hunting and SOAR automation powered by our proprietary detection stack. Average triage: 4.2 minutes.

Technical Support & Maintenance

24/7 helpdesk, on-site and remote support, preventive maintenance and annual maintenance contracts for every device on your network.

IT Service Management

ITIL-aligned service desks, change & release management, CMDB, SLA governance and continuous service improvement programmes.

Website & Application Hosting

Cloud & VPS hosting, managed backups, SSL, CDN acceleration and high-availability infrastructure with 24/7 uptime monitoring.

Training · Consultation

Training

Security awareness, SOC analyst, compliance and IT service management training — delivered by the same engineers who run these systems for our clients every day. Practical, hands-on, and mapped to real operational roles.

Consultation

Compliance, IT financial planning, governance and digital-transformation advisory for leadership teams who need a clear roadmap — not just a report. Delivered by consultants who also run the technical delivery, so recommendations are grounded in what's actually achievable.
